OGC HAS REVIEWED.

MEMORANDUM FOR THE RECORD

SUBJECT: Allen Dulles Papers

25X1A9A 1. [] , Acting Director of Security, advised that after the
25X1A9A completion of the review of these papers by [] on 26 September
[] had a Security officer review those papers that were to be returned to
the Allen Dulles Estate. In this review the Security officer discovered 110
classified papers ranging in classification from Confidential to Top Secret.
Possibly more will be found as the Security officer completes his review.
At this point we have no explanation of why [] permitted the inclu- 25X1A9A
sion of these classified papers in the group to be returned to the Allen Dulles
Estate. I directed [] to remove these papers and hold them separately
and we will call in [] for an explanation.

25X1A9A 2. In light of the above, there is now a question as to the sufficiency of
the review by [] and it may be well that we have those papers
destined for the Estate again reviewed by another officer. I suggested Jack
25X1A9A [] who will be in Washington on 6 October. At this time the matter
25X1A9A will be discussed with [] about the undertaking of such a review.
25X1A9A Since [] does not like to be away from his residence too long, I
suggested that we could transport these papers [] and Mr.
[] could review them [] over a specified period. The []
25X1 is located within an hour of [] residence, so this should not in-
convenience him; and he has the knowledge and experience to adequately re-
view these papers.
